

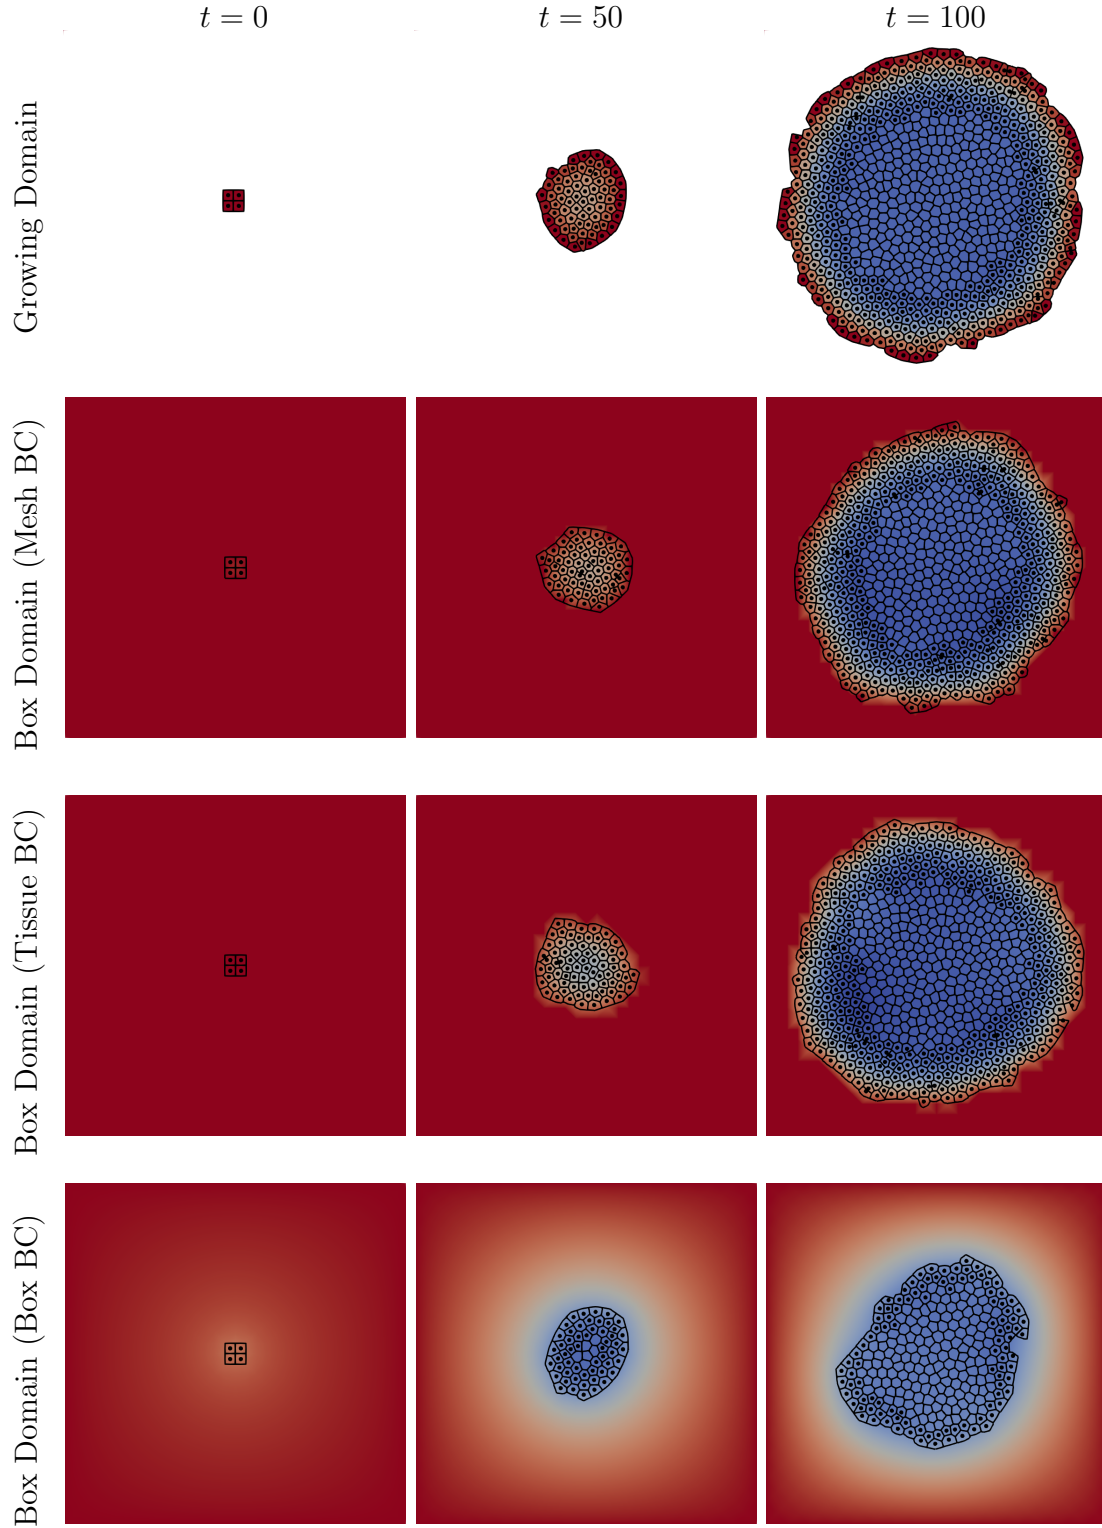

Figure 1: **Convergence of Elliptic PDE solutions.** Nutirent dependenent CCM. Convergence as space step is decreased. Dashes line is results from solving the PDE on a growing domain.

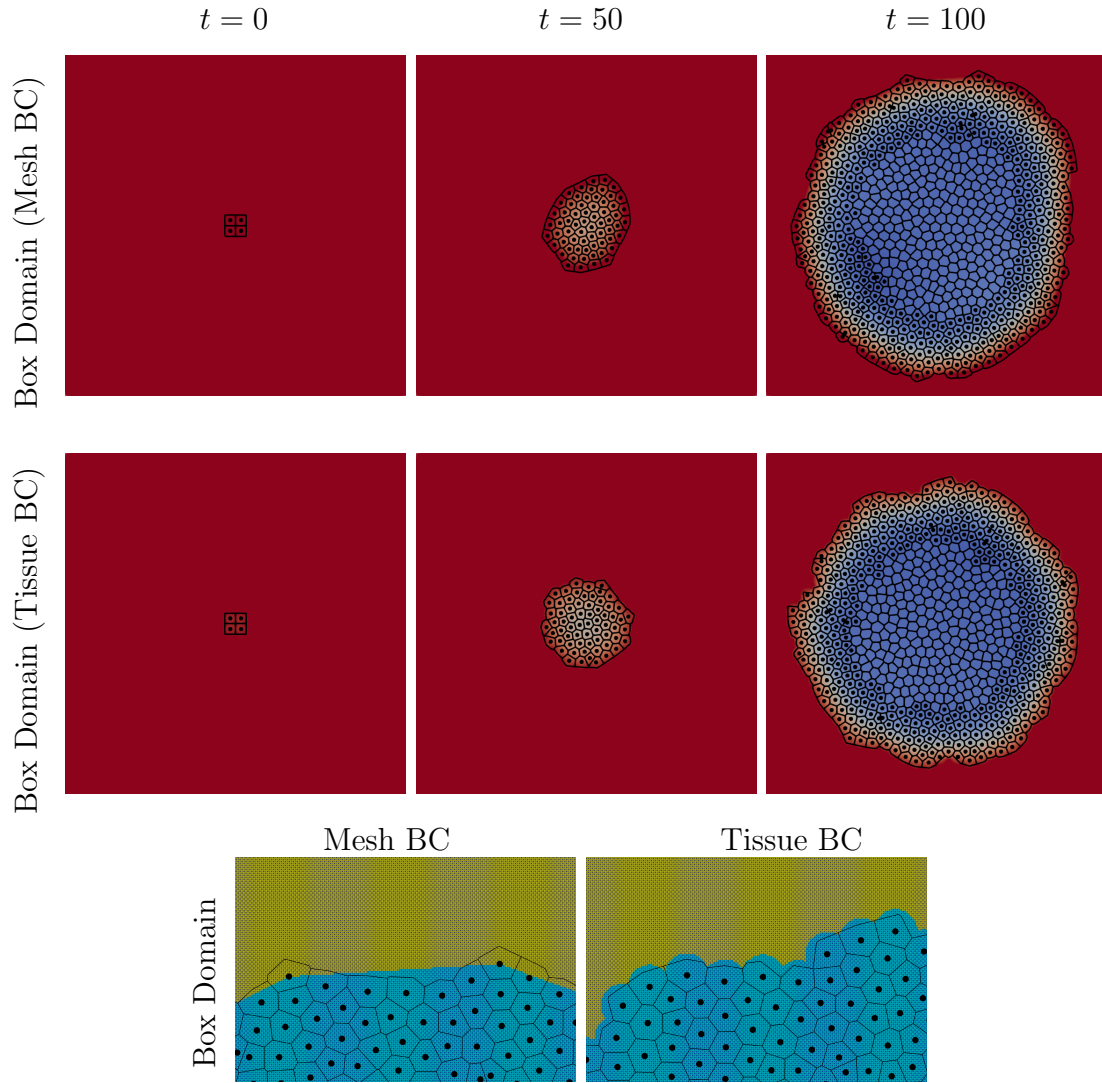

Figure 2: **Convergence of Elliptic PDE solutions.** Nutirent dependenent CCM. Convergence as space step is decreased. Dashes line is results from solving the PDE on a growing domain.

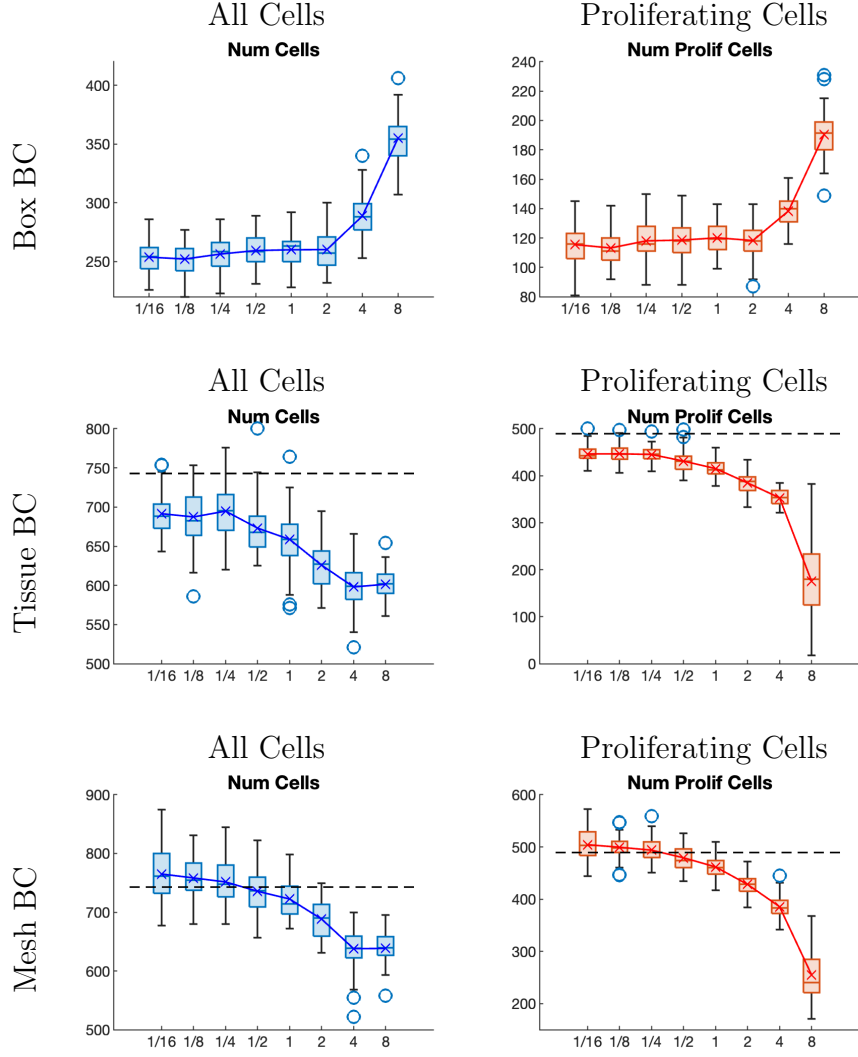

Figure 3: **Convergence of Elliptic PDE solutions.** Nutrient dependent CCM. Convergence as space step is decreased. Dashes line is results from solving the PDE on a growing domain.

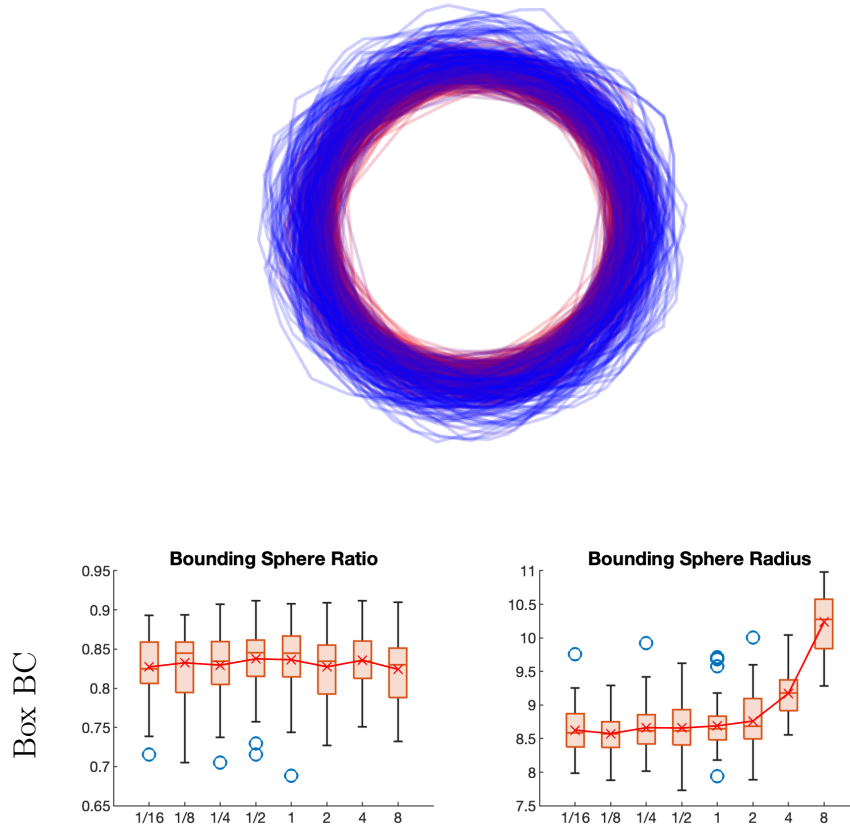

Figure 4: **Convergence of Elliptic PDE solutions.** Nutirent dependendent CCM. Convergence as space step is decreased. Dashes line is results from solving the PDE on a growing domain.
